PRODUCT

FOR LEARNERS

COMPANY

1. Two entry points: Log in for all roles, Register for school owners.
2. Primary CTA starts the 3-step registration; secondary opens the learner portal demo.
3. The day sheet is the proof shot: a live-looking slice of the admin board, with a load-shedding row.
4. Problem strip: four tools schools run in parallel today.
5. Six capability cards, one per module, each with a small product crop.
6. Onboarding in four steps, paired with a real photograph.
7. Closing CTA repeats the hero action.

Learners	**Diaries**	**Money**	**Tests**

1 Document-style meta strip sets an editorial, spec-sheet tone.

2 Type-led hero: no product image, the headline carries the page.

3 Numbered spec strip replaces the six feature cards of direction A.

Lesson · DLTC test · Load-shedding block · Open slot

1. Changes stay a draft until "Publish to instructors" pushes them to the phone app.
2. Tray holds lessons with no slot: new bookings, and lessons bumped out of a load-shedding block.
3. Instructor filter; each instructor gets a distinct fill pattern in the hi-fi pass.
